

Stanislav Pogorskii – Frontend Developer

Tbilisi, Georgia | +995511107834 | stanislav.pogorskii@gmail.com
<https://www.linkedin.com/in/pogorskii/> | <https://t.me/staspogorsky>

SUMMARY

Results-driven and versatile frontend developer with 2+ years of experience crafting high-performance and user-friendly web applications. Adept in HTML, CSS (SASS, Tailwind), JavaScript, jQuery, TypeScript, React, and Next.js. Thrives in a collaborative environment working on challenging tasks and continuously expands skillset to stay ahead of the curve. Passionate for performance and accessibility.

WORK EXPERIENCE

Freelance

February 2022 – Present

Frontend Developer

Remote

- Developed responsive landing pages using **HTML, CSS (SASS), and JavaScript** for **10+ small businesses**, ensuring pixel-perfect design implementation and cross-device compatibility.
- **Increased conversion rates by 50%** for a cleaning company by implementing a custom order-price calculator using **jQuery**. Reduced order registration time from 50 minutes to **10–15 minutes**.
- Built a modular template for a car-service business using **HTML, CSS, and JavaScript**, enabling them to reuse the design for **6 additional services**.
- Leveraged **React, Tailwind**, and **Bootstrap** to create a dynamic cybersport landing page in **record time**, exceeding client expectations by **200%**.

Sports.ru

June 2019 – Present

Head Editor of Games and Movies / January 2022 – Present

Remote

- Lead a team of **10** authors, fostering a collaborative environment that increased the team's productivity by **50%**.
- Developed and implemented a data-driven content strategy. This resulted in a **90% increase** in monthly website traffic, from 2 million to **3.8 million views**.
- Secured partnerships with **30+** leading publishers and gaming companies, including **PlayStation, Xbox, and Nintendo**.

Author / June 2019 – December 2021

- As a gaming and movie expert, I consistently delivered engaging articles, reviews, and previews, with several exceeding **50,000 views**.
- Reported from major gaming events like Igromir and secured exclusive interviews with renowned creators like James Gunn.

PROJECTS

ReleaseNexus

October 2022 – Present

Live: <https://releasenexus.vercel.app> / Code: <https://github.com/pogorskii/wiitco-app>

Built a dynamic Next.js/TypeScript SPA that simplifies tracking upcoming movie, TV show, and video game releases for users by streamlining data from diverse APIs into a user-friendly interface. This eliminated the need for users to visit multiple websites or apps, reducing time spent searching and increasing user satisfaction.

- Integrated disparate **APIs** from various sources, overcoming data inconsistency and formatting challenges.
- Implemented robust **PostgreSQL** database and **Go** backend to ensure data integrity and scalability, effectively handling daily processing of **300,000+ records**.
- Converted external DB from error-prone noSQL to robust and normalized PostgreSQL.
- Achieved secure user authentication using **Auth0**, providing a safe and reliable UX.

SKILLS

Frontend

- **Markup and Styling:** HTML5, CSS3, SASS, Tailwind.
- **Languages:** JavaScript, TypeScript.
- **Libraries and Frameworks:**, React, Redux, Next.js, jQuery, D3.js.

Backend

- **Languages and Frameworks:** Node.js, Express.js.
- **Data handling:** MongoDB, PostgreSQL, Prisma, Zod.

Tools: Git, GitHub, Figma.

Builders: Webpack, Babel.

Testing: React Testing Library.

Best Practices & Methodologies: a11y, DRY, BEM, Clean Code, Modular Code, Maintainable Code, Mobile-first, Scalability, Debugging, Pixel-perfect, Responsive, RESTful APIs, Asynchronous Request Handling, CI/CD.

Soft Skills: Problem-Solving, Teamwork, Adaptability, Communication, Stress Resilience, Accountability, Time Management.

Languages: Russian (Native), English (C1), German (A1).

EDUCATION

Khimki College of Space Engineering

2017

Diploma in Programming

Moscow, Russia

- Focused on web development, learning HTML, CSS, JavaScript, and MySQL.
- Developed several web applications as part of my coursework, including a static portfolio website and a dynamic to-do list app using vanilla JavaScript and MySQL.
